

LispCourse #23: What is Programming; Basic Lisp Revisited

LispCourse #24: Data Abstraction

LispCourse #25: The Record Package; The Inspector

LispCourse #26: Reprise; Continuation of Record Package from #25

LispCourse #27: Homework from #26; Completion of #25 & #26

LispCourse #28: Type Checking; Strings; Arrays

LispCourse #29: Solutions for Homework #28

LispCourse #30: Conceptual Models for Atoms, Lists *et al.*

LispCourse #31: Solutions for Homework #30, Problems 2 and 3

LispCourse #32: Homework on circular queues

LispCourse #33: Solutions for Homework #32

LispCourse #34: Variable Binding and the Interlisp Stack

LispCourse #35: Solutions to Homework #34

LispCourse #36: More on Variable Binding; Control Structures in Lisp

LispCourse #37: Recursion; Organizing Large Programs

LispCourse #38: Files; Streams; Input/Output

LispCourse #39: Solutions to Homework #38

LispCourse #40: Using the Display: Bitmaps, DisplayStreams, & Windows

LispCourse #41: The Compiler and MASTERSCOPE
